

***Response to Amendment***

1. The reply filed on 2/27/09 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant's arguments do not comply with 37 CFR 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections.
2. While Applicant presents arguments with respect to various features of claim 1, and asserts that claims 8, 15 and 21 are allowable for "a similar rationale" (Remarks 11-13), claim 8 does not contain the limitations (e.g., "stored state information that is unique to a message" and "stored action information ... is retrieved using the computer system from the portion of the stored action information associated with the message identifier") asserted to distinguish the claims from the prior art of record. Applicant has presented no additional arguments with respect to claim 8, so Applicant has failed to clearly point out the patentable novelty of claim 8.
3. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
